President's Message - *Aimee Bendotti*

On Behalf of the 2025 Warren Districts Agricultural Society committee, I would like to welcome everyone to our Annual Show. Our dedicated committee have worked tirelessly throughout the year, they have been fundraising and putting together ideas for this year's show and I'd like to thank them very much for their efforts.

This year we are focusing on Avocados. The Avocado industry, although a relatively new industry, first started in the mid to late 80's in the Pemberton area. The Avocado industry in the Southern Forest Region has quickly established itself as a leader in Australian production of avocados.

Producers in the region predominately grow Hass avocados, with many national and international markets. In 2021-2023 seasons on average WA produced the second largest number of avocados in Australia with 34100tn behind QLD with 36400tn.

Each year we try to offer something for everyone within the community and Avo-good feeling that this year's show will be no different.

We have all the usual show favourites, Poultry Pavilion, Cattle Displays, Show Jumping, Show and Breed Horses, Goat Displays, Cavies Displays, Dog Show Jumping, Log Chops, Sideshow Alley, Helicopter Rides, Live music and performances throughout the day.

"The Last Avocado" will be guacing the night away on Friday night before finishing off with the WA Chip Fireworks.

Check out the exhibits in the Exhibition hall, it will be open from 4pm on Friday for viewing and all day Saturday. Head around the grounds on Saturday to see all the animals and competitions.

We will have a wide variety of trade stalls and exhibits around the grounds. At the 'Make Do Grow Zone' there will be plenty of hands on stuff to do and see.

A map and handout with other information will be available at the gate on Show Day.

We will have loads of free entertainment on both Friday night and Saturday with Walter the Whip, Old McDonalds Farm, Birds of Prey and a craft area for all ages.

Our Inaugural Young Farmers Challenge will be run on Saturday. This is a series of skills-based challenges for teams and will be fun to watch.

We would like to thank all of our Sponsors for their valued support and ask that all exhibitors and the public show their appreciation by supporting them wherever possible.

We are a not for profit organisation run by volunteers and appreciate our wonderful sponsors who give each and every year, so that the Show can go on, you Guac!

Please remember to support local where you can.

Thanks to Talison Lithium, we are able to offer free entry for children 12 year and under (if accompanied by an adult)

Thank you very much for coming, and Avo good time at our show

- 16 Schedule Cake, Chocolate Avocado Cake with Chocolate Avocado frosting

INGREDIENTS

For the cake:

3 cups plain flour

6 tablespoons unsweetened cocoa powder

2 teaspoons baking powder
2 teaspoons baking soda
1/2 teaspoon salt
1/4 cup vegetable oil
1 ripe avocado mashed until very smooth
2 cups water
2 tablespoons white vinegar
2 teaspoons vanilla extract
2 cups castor sugar

For the frosting:

2 large ripe avocados peeled and pitted
2 cups icing sugar
4 tablespoons cocoa powder

Instructions

Preheat oven to 180 degrees Celsius

Grease and flour a 10" round cake tin

In a large mixing bowl, whisk together flour, cocoa powder, baking powder, baking soda and salt. Set aside.

In a separate bowl, whisk together the vegetable oil, avocado, water, vinegar and vanilla. Whisk until well combined.

Whisk sugar into the wet mix.

Add the wet mixture to the flour mixture all at once. Beat with a whisk (by hand) until smooth.

Pour batter into the cake pan. Bake for 45 to 55 minutes or until a toothpick inserted comes out clean.

Let cake cool in pan for 15 - 20 minutes on a cooling rack. Turn cake out onto cooling rack to cool completely before frosting.

For buttercream frosting:

Scoop avocados out into a food processor. Process until smooth, about 2 minutes, stopping to scrape down avocado with spatula if necessary.

Add icing sugar and cocoa powder to pureed avocado. Process for another minute or until creamy and combined, stopping once to scrape down mixture if necessary.

Frost cake. Let cake sit a few hours before serving, allowing time for flavours to blend.

Warren District Ag Society Cavies Show Schedule

Welcome to the Warren District Ag Society Cavies Pedigree and Pet Cavy Show. Please follow the schedule below to enter your cavies. Each specific class is based on cavy type and genetics.

AGOUTI

Agouti cavies are characterised by a distinct 'ticking' pattern, where each hair alternates between bands of two colours. The Agouti pattern is determined by the dominant Agouti gene (A). These cavies do not carry genes for long hair, satin, or markings. Examples include White Black Agouti, Red Lilac Agouti, White Chocolate Agouti, Cream Slate Agouti etc.

MONOCHROME / Self

Self Cavies are solid coloured throughout their body, controlled by the non-agouti allele (aa). They do not carry genes for long hair, crests or satin. Examples include Self Black, Self Lilac, Self White (DEW and PEW).

CRESTED

Crested cavies have a distinct rosette on their forehead caused by the dominant gene (C). This group includes a Monochrome Crested (solid colours) and Crested Any Other Variety (marked or agouti cavies with a crest). Examples include Black Crested, White Black Agouti Crested and Dutch Crested.

HAIRLESS

Hairless cavies lack fur due to a recessive mutation (hr) with minimal fur on the nose and feet. Examples include Australian Hairless Cavy, Skinny Pig and Baldwin Cavy.

MULTI-CHROME / Marked

Marked cavies have two or more distinct colour patches, controlled by the S locus. Examples include Bi-Colour, Tri-Colour, Brindle, Dutch and Himalayan.

ROSETTE

Rosetted cavies have multiple circular hair whorls, controlled by the dominant gene (R). Examples include Abyssinian (8-10 rosettes) and Ridgeback (a single ridge along the back).

TEXTURED

Textured cavies have unique coat types, such as dense or springy fur, controlled by dominant genes. Examples include Rex (short, springy coat), Teddy (soft plush coat), and Curly Rex (wavy fur).

LONG HAIR

Long-haired cavies carry a recessive gene (I) that leads to continuous hair growth. Examples include Peruvian (long flowing hair), Silkie, Texel (long curls), Coronet (long hair with crest), and Alpaca (wavy long hair).

SATIN

Satin cavies have a shiny coat due to a recessive mutation in the Satan gene. However they are prone to osteodystrophy, a genetic bone disease. Due to these health concerns, Satin cavies are excluded from Pedigree shows but may be shown in Pet Classes. Examples include Satin Black, Satin Lilac.
